## HYDRAULIC TOOLS

### Environmental Policy

Hi-Force Ltd (The Organisation) are situated in Daventry, Northamptonshire and are widely recognised for the design, manufacture and supply of high pressure hydraulic tools to the oil, gas and petrochemical industries. Operating on the edge of Daventry town, the site is within a secure industrial estate ensuring environmentally friendly conditions are maintained for all concerned.

The organisation recognises it has a duty to protect the environment and is committed to achieving best environmental practice throughout its business activities with regard to its overall environmental objectives and targets.

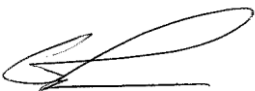

The organisation will:

Make a commitment to protect the environment by

- Ensuring all waste is managed, treated, and disposed of in an environmentally acceptable manner and, wherever practicable, minimise waste.
- Committing to the prevention of pollution.
- Working with major suppliers, contractors, and customers to assist in their environmental performance improvement.
- Ensuring appropriate resources are available to fully implement the environmental policy and continuously review the policy's relevance with respect to legal and business developments.
- Reducing the amount of waste to landfill.
- Reducing the utility costs for the processes and activities on site.
- Utilising resources in a sustainable manner, using recyclable and re-useable products wherever possible.

The Company is committed to continually improving the Environmental Management System and the improvement of environmental performance as well as fulfilling our compliance obligations.

This Policy will be communicated to all staff, contractors, and suppliers, and be available to the public through selected media.
